

15 OCT 1963

MEMORANDUM FOR: Director of Security

Bob:

With regard to the status of our reinvestigation program as outlined in your memorandum of 1 October, I have these observations:

a. In paragraph 5 you indicate that in a total of 25X9A2 [redacted] cases reinvestigation has been completed, is in process, or a review of the file indicates that reinvestigation is not required. In paragraph 6, either through personal interview or a review of the file, you have concluded that formal reinvestigation is not necessary in [redacted] 25X9A2 cases. Thus, according to these statistics, since June 1961 reinvestigative action of some kind has been taken in [redacted] cases. 25X9A2

b. According to our present strength, from a statistical point of view we would take some kind of reinvestigative action on all employees in the Agency (current strength approximately [redacted]) 25X9A2 in about five to six years.

c. Inasmuch as multiple actions of one kind or another may be taken on the same individual, I wonder whether our system does ensure at least a review of all files within a period of five or six years. I think we should either have a system which does this or else we should make our case to higher authority as to the reasons why we do not.

Would you please give this some consideration and discuss it with me sometime in the near future.

Signed

L. K. White
